INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Township of Vevay
Mason, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Township of Vevay, Michigan (the "Township") as of and for the year ended March 31, 2020, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Township, as of March 31, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and the pension schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

Management's Discussion and Analysis

As management of the Township of Vevay, Michigan (The "Township" or "government") we offer readers of the Township's financial statements this narrative overview and analysis of the financial activities of the Township for the fiscal year ended March 31, 2020. We encourage readers to consider the information presented here in conjunction with the financial statements.

Financial Highlights

- The assets and deferred outflows of the Township exceeded its liabilities at the close of the most recent fiscal year by \$382,147 (net position). Of this amount, \$190,653 represents unrestricted net position.
- At the close of the current fiscal year, the Township's governmental funds reported combined fund balances of \$635,302, an increase of \$144,960 in comparison with the previous year. A portion of this amount, \$494,623, is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$494,623, or approximately 83% of annual general fund expenditures.

Overview of the Financial Statements

The discussion and analysis provided here is intended to serve as an introduction to the Township's basic financial statements. The Township's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the Township's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the Township's assets, deferred outflows, and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The *statement of activities* presents information showing how the Township's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., changes in net pension liability and depreciation of capital assets).

Both of the government-wide financial statements report functions of the Township that are principally supported by taxes and intergovernmental revenues (governmental activities). The

governmental activities of the Township include general government, public works, community and economic development, and public safety.

The government-wide financial statements include not only the Township itself (known as the primary government), but also a legally separate Downtown Development Authority (“DDA”) for which the Township is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the Township.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Township, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Township can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government’s near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Township maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the four nonmajor special revenue street lighting funds (which are aggregated into one column).

The Township adopts an annual appropriated budget for the general fund and each special revenue fund. A budgetary comparison schedule for the general fund has been provided.

Notes to the Financial Statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the Township’s budgetary comparison and pension schedules.

This report also presents other supplementary information consisting of combining statements for the Township's nonmajor special revenue funds. These statements are presented immediately following the required supplementary information.

Government-wide Overall Financial Analysis

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. In the case of the Township, assets and deferred outflows exceeded liabilities by \$382,147 at the close of the most recent fiscal year.

	<u>2020</u>	<u>2019</u>
ASSETS		
<i>Current Assets</i>		
Cash and Cash Equivalents	\$ 590,707	\$ 482,515
Taxes Receivable	3,886	4,645
Accounts Receivable	18,287	14,066
Due from State	22,138	-
Prepaid Items	6,613	-
<i>Total Current Assets</i>	<u>641,631</u>	<u>501,226</u>
<i>Noncurrent Assets</i>		
Capital Assets not Being Depreciated	32,509	32,509
Capital Assets Being Depreciated	155,354	170,807
<i>Total Assets</i>	<u>829,494</u>	<u>704,542</u>
DEFERRED OUTFLOWS OF RESOURCES		
Pension Related Items	8,746	31,630
<i>Total Deferred Outflows of Resources</i>	<u>8,746</u>	<u>31,630</u>
LIABILITIES		
<i>Current Liabilities</i>		
Accounts Payable	3,621	7,695
Accrued Liabilities	2,708	3,189
Current Portion of Long-term Debt	10,325	10,325
<i>Total Current Liabilities</i>	<u>16,654</u>	<u>21,209</u>
<i>Noncurrent Liabilities</i>		
Net Pension Liability	294,889	318,234
Long-term Debt	144,550	154,875
<i>Total Liabilities</i>	<u>456,093</u>	<u>494,318</u>
NET POSITION		
Investment in Capital Assets	187,863	203,316
<i>Restricted for:</i>		
Public Works	3,631	4,374
<i>Unrestricted</i>	190,653	34,164
<i>Total Net Position</i>	<u>\$ 382,147</u>	<u>\$ 241,854</u>

A portion of the Township’s net position (\$187,863) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure). The Township uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending.

A portion of the balance, \$3,631, is restricted and may not be used other than by its restricted purpose. The remaining amount of \$190,653 is reported as unrestricted net position and is available to pay vendors, employees, and creditors.

Governmental Activities. Governmental activities increased the Township’s net position by \$140,293 when compared to the previous year.

Property tax revenues were \$261,096 during 2019 and decreased slightly to \$256,644 during 2020. State revenue sharing in the governmental activities increased from \$315,322 to \$349,028. The Township is optimistic that the state-wide trend of stabilizing tax bases will be reflected in the Township’s tax base in the upcoming years.

	<u>2020</u>	<u>2019</u>
Revenue		
Program Revenues		
Charges for Services	\$ 134,763	\$ 95,803
Operating Grants & Contributions	6,602	6,526

Other Functions	52,544	54,250
<i>Total Expenses</i>	<u>614,994</u>	<u>635,394</u>
<i>Change in Net Position</i>	140,293	46,315
Net Position at the Beginning of Period	241,854	195,539
<i>Net Position at the End of Period</i>	<u>\$ 382,147</u>	<u>\$ 241,854</u>

Financial Analysis of Governmental Funds

As noted earlier, the Township uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the Township's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the Township itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the Township's Board.

At March 31, 2020, the Township's governmental funds reported combined fund balances of \$635,302, an increase of \$144,960 over the prior year. A portion of this amount (\$494,623) constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance is either *nonspendable, restricted, committed, or assigned* to indicate that it is: 1) restricted for particular purposes (\$3,631, or 0.5%), 2) not in a spendable form (\$6,613, or 1%), or 3) committed for particular purposes (\$130,435, or 20.5%).

The general fund is the chief operating fund of the Township. At the end of the current fiscal year, unassigned fund balance of the general fund was \$494,623. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total general fund expenditures. Unassigned fund balance represents approximately 83% percent of total general fund expenditures.

The fund balance of the Township's general fund increased by \$145,703 during the current fiscal year.

Governmental Activities

The following chart summarizes the revenue sources for the governmental activities of the Township for the most recent fiscal year-end:

The following chart summarizes the expenses for the governmental activities of the Township for the most recent fiscal year-end:

General Fund Budgetary Highlights

Original budget compared to final budget. During the year there was no need to adjust expenditures in the final budget of \$710,463. However, expenditures within departments were adjusted as actual expenditures became known during the year.

Final budget compared to actual results. During the current fiscal year the Township had no actual expenditures in excess of the amounts appropriated.

Capital Assets and Debt Administration

Capital Assets

The Township's investment in capital assets for its governmental activities as of March 31, 2020 amounts to \$187,863 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings, and machinery & equipment.

More detailed information about the Township's capital assets can be found in Note 4.

Long-term Debt

The Township financed their portion of the Mud Creek Drain project with the County. The current portion of the long-term debt for the fiscal year ended March 31, 2020 is \$10,325 while the remaining balance of the long-term debt is \$144,550.

More detailed information about the Township's long-term debt can be found in Note 5.

Economic Condition and Outlook

Property tax revenues are expected to change minimally reflecting fairly stable property values. The Township continues to review all budget line items for opportunities to reduce expenditures when possible. The budget will be monitored during the year to identify any necessary amendments. In 2021, the Township plans again to use current revenues to provide essential services and to maintain the Township's financial reserves at similar levels.

Contacting the Township

This financial report is designed to provide a general overview of the Township's finances to its citizens, customers, investors, and creditors and to demonstrate the Township's accountability for the resources it receives. Questions regarding any information provided in this report or requests for additional financial information should be addressed to:

Township of Vevay

Notes to the Financial Statements

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Township of Vevay, Michigan (the “Township” or “government”) conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Township:

Reporting Entity

In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 61, "*The Financial Reporting Entity*," these financial statements present the Township and one component unit. The criteria established by GASB for determining the reporting entity includes oversight responsibility, fiscal dependency, and whether the financial statements would be misleading if data were not included.

The following organization is a component unit of the Township and is included as a discretely presented component unit in the basic financial statements:

Downtown Development Authority (the “DDA”)

The DDA is responsible for the creation of a development and financing plan for the downtown district or a development area within the district to promote economic growth. The DDA must obtain the Township Board’s approval of all development and financing plans. The annual operating budget and any modifications also require the Township Board’s approval.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities are normally supported by taxes and intergovernmental revenues.

The *statement of activities* demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenue are reported instead as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Township of Vevay

Notes to the Financial Statements

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary funds. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds, a type of fiduciary fund, are unlike all other types of funds, reporting only assets and liabilities. Therefore, agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenue to be available if it is collected within 60 days of the end of the current fiscal period.

Property taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and as such have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Township. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable only when cash is received by the Township.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

The Township reports the following major governmental fund:

The ***general fund*** is the Township's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Additionally, the Township reports the following fund types:

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Fiduciary funds account for assets held by the Township in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds.

Township of Vevay

Notes to the Financial Statements

Property Tax Revenue Recognition

The Township bills and collects both its own property tax levy and the tax levy for other governmental units. The Township's property tax revenue recognition policy and related tax calendar disclosures are as follows:

Property taxes are levied twice per year. A summer tax is levied on July 1 and a winter tax is levied on December 1. The tax levies are due September 14 and February 14, respectively. All taxes not paid by their due dates are deemed delinquent. Delinquent real property taxes are turned over to the Ingham County Treasurer on March 1 of the year following the levy. The Ingham County Treasurer remits payments to all taxing units on all delinquent real property taxes. Delinquent personal property taxes are retained by the Township for subsequent collection. Property taxes are recognized as revenues in the period for which they are levied.

The Township is permitted to levy up to \$1.00 per \$1,000 of the taxable valuation for general government service. For the year ended March 31, 2020, the Township levied 1.0000 mills for general governmental services. The total taxable value for the 2019 levy for property within the Township was \$139,225,739.

Assets, Liabilities, Deferred Inflows, Deferred Outflows and Net Position or Equity

Bank Deposits and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired.

State statutes authorize the Township to deposit in the accounts of federally insured banks, credit unions and savings and loan associations and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers' acceptances, and mutual funds composed of otherwise legal investments.

Receivables and Payables

Outstanding balances between funds are reported as "due to/from other funds." All receivables are considered to be fully collectible as of year-end.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Township of Vevay

Notes to the Financial Statements

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Years</u>
Land Improvements	40
Buildings & Improvements	10 - 40
Machinery & Equipment	3 - 15
Vehicles	5 - 10

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government-wide statements report pension related deferred outflows from the difference between projected and actual investment earnings of the pension plan, the deficit investment returns recognized in the calculation of its net pension liability, as well as Township contributions made after the measurement date of the net pension liability.

Compensated Absences (Vacation and Sick Leave)

The Township employee benefit package does not allow the accumulation of vacation or sick pay beyond a fiscal year.

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the government's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. Governmental funds report

Township of Vevay

Notes to the Financial Statements

nonspendable fund balance for amounts that cannot be spent because they are either: a) not in spendable form or b) legally or contractually required to be maintained intact. Nonspendable fund balance are equal to prepaid items. *Restricted fund balance* is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The *committed fund balance* classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The Township Board is the highest level of decision-making authority for the government that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the *assigned fund balance* classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. The Township Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment.

Unassigned fund balance is the residual classification for the Township's general fund and includes all spendable amounts not contained in the other classifications and is, therefore, available to be spent as determined by the Township Board.

Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position.

In the fund financial statements, governmental fund types report the face amount of debt issued as other financing sources.

Township of Vevay

Notes to the Financial Statements

Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Municipal Employees Retirement System (“MERS”) of Michigan and additions to/deductions from MERS’ fiduciary net position have been determined on the same basis as they are reported by MERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Interfund Transactions

During the course of normal operations, the Township may have transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers. Transfers between governmental or component units are netted as part of the reconciliation to the government-wide financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Note 2 - Stewardship, Compliance, and Accountability

Budgetary information

The Township is legally subject to the budgetary control requirements of the State of Michigan P.A. 621 of 1978 (Uniform Budgeting Act). The following is a summary of the requirements of this act:

- Budgets must be adopted for the general and special revenue funds.
- Budgets must be balanced.
- Budgets must be amended as necessary.
- Public hearings must be held prior to adoption.
- Expenditures cannot exceed budget appropriations.
- Expenditures must be authorized by a budget appropriation prior to being incurred.

Township of Vevay

Notes to the Financial Statements

The Township follows these procedures in establishing the budgetary data reflected in these financial statements:

- In accordance with State law, prior to March 31, the Supervisor submits to the Township Board a proposed operating budget for the fiscal year commencing the following April 1. The operating budget includes proposed expenditures and means of financing them for the upcoming year. Detail line item budgets are included for administrative control. The level of control for the detail budgets is at the departmental basis.
- Public hearings are conducted to obtain taxpayer comment.
- Prior to March 31, the budget is legally enacted through passage of a budget resolution (general appropriation act).
- Formal budgetary integration is employed as a management control device for the general and special revenue funds. Budgets for these funds are prepared and adopted on a basis consistent with generally accepted accounting principles (GAAP).
- Budget appropriations lapse at year end-encumbrance system not used.
- Budgeted amounts are reported as originally adopted and as amended by the Township Board.

Excess of Expenditures Over Appropriations in Budgetary Funds

The Township had no expenditures of budgetary funds which were in excess of the amounts budgeted during the year ended March 31, 2020.

Note 3 - Cash and Investments

The captions on the government-wide and fund statements relating to cash are as follows:

	Primary Government	Component Unit	Fiduciary Funds
Statement of Net Position			
Cash and Cash Equivalents	\$ 590,707	\$ 593,802	\$ 10,335
Deposits and Investments			
Checking and Savings Accounts	\$ 437,128	\$ 181,772	\$ 10,335
Certificates of Deposit	153,579	412,030	-
Total	<u>\$ 590,707</u>	<u>\$ 593,802</u>	<u>\$ 10,335</u>

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits may not be returned. State law does not require and the Township's investment policy does not have specific limits in excess of state law pertaining to custodial credit risk. As of year-end, \$10,349 of the bank balance of \$822,375 was exposed to custodial credit risk because it was uninsured and

Township of Vevay

Notes to the Financial Statements

uncollateralized, the amount exposed to custodial credit risk is higher in prior years due to the tax fund having outstanding checks as of yearend.

Credit Risk

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Township's investment policy does not further limit its investment choices. As of year-end, all deposits and investments consist of demand accounts, pooled investments, certificates of deposit, all of which are not rated.

Agency	Rating	Amount
Standard & Poor's	AAAm	\$ 373,692

Interest Rate Risk

State law limits the allowable investments and the maturities of some of the allowable investments as identified in the summary of significant accounting policies. The Township's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Township's deposits and investments consisted of the following:

	Certificates of Deposit	Cash Equivalents and Investments
No Maturity	\$ -	\$ 373,692
Due Within 1 Year	565,610	-
Due in 1-5 Years	-	-
	\$ 565,610	\$ 373,692

Fair Value Measurement

The Township categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

- Investments held with MICLASS totaled \$373,692. MICLASS is authorized to invest in the same investment types as local units of government in Michigan. These holdings are valued using Level 2 inputs.

Township of Vevay

Notes to the Financial Statements

Note 4 - Capital Assets

Capital asset activity for the year was as follows:

Governmental Activities	Balance at 3/31/2019	Additions	Disposals	Balance at 3/31/2020
Capital Assets not being Depreciated				
Land	\$ 32,509	\$ -	\$ -	\$ 32,509
Capital Assets being Depreciated:				
Land Improvements	40,088	-	-	40,088
Buildings & Improvements	312,544	-	-	312,544
Machinery & Equipment	172,506	-	700	171,806
Vehicles	18,488	-	-	18,488
Total Capital Assets being Depreciated	<u>543,626</u>	<u>-</u>	<u>700</u>	<u>542,926</u>
Less Accumulated Depreciation:				
Land Improvements	12,334	1,002	-	13,336
Buildings & Improvements	227,541	4,612	-	232,153
Machinery & Equipment	114,456	9,838	700	123,594
Vehicles	18,488	-	-	18,488
Total Accumulated Depreciation	<u>372,819</u>	<u>15,453</u>	<u>700</u>	<u>387,572</u>
Total Capital Assets being Depreciated, Net	<u>170,807</u>	<u>(15,453)</u>	<u>-</u>	<u>155,354</u>
Net Capital Assets, Governmental	<u>\$ 203,316</u>	<u>\$ (15,453)</u>	<u>\$ -</u>	<u>\$ 187,863</u>

Depreciation expense of \$15,453 was charged to the general government function of the Township.

Note 5 - Long-term Debt

Long-term debt activity for the year ended March 31, 2020 was as follows:

Governmental Activities:	Beginning of Year	Additions	Reductions	End of Year	Due Within One Year
2015 Ingham County General Obligation Unlimited Tax Bonds, as allocated to the Township, to finance the Mud Creek Special Assessment Project. Payable in annual installments of \$10,325 plus accrued interest at 4.15% plus the coupon rate of the bonds through the 2035 fiscal year.	\$ 165,200	\$ -	\$ 10,325	\$ 154,875	\$ 10,325

Township of Vevay

Notes to the Financial Statements

The annual requirements to maturity on the total long-term debt obligation outstanding at March 31, 2020 are as follows:

Year Ending March 31,	Governmental Activities		
	Principal	Interest	Total
2021	\$ 10,325	\$ 6,466	\$ 16,791
2022	10,325	6,035	16,360
2023	10,325	5,604	15,929
2024	10,325	5,173	15,498
2025	10,325	4,742	15,067
2026-2030	51,625	19,397	71,022
2031-2035	51,625	8,620	60,245
Totals:	\$ 154,875	\$ 56,037	\$ 210,912

Note 6 - Defined Benefit Pension Plan

Plan Description

The employer's defined benefit pension plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. The employer participates in the Municipal Employees Retirement System (MERS) of Michigan. MERS is an agent multiple-employer, statewide public employee pension plan established by the Michigan Legislature under Public Act 135 of 1945 and administered by a nine-member Retirement Board. MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the MERS website at www.mersofmich.com.

Retirement benefits for employees are calculated as follows:

Division	Benefit Multiplier	Benefit Maximum	Final Average Compensation (Years)	Normal Retirement Age	Unreduced Benefit (Age/Years of Service)	Reduced Benefit (Age/Years of Service)	Vesting (Years)
General - Open	2.25%	80%	5	60	-	50/25 or 55/15	10

Township of Vevay

Notes to the Financial Statements

Employees Covered by Benefit Terms

At the December 31, 2019 valuation date, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefits	6
Inactive plan members entitled to but not yet receiving benefits	2
Active plan members	<u>4</u>
Total employees covered by MERS	<u>12</u>

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by the MERS Retirement Board. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer may establish contribution rates to be paid by its covered employees.

For the year ended March 31, 2020, the Township had the following contribution rates:

<u>Division</u>	<u>Employee Contributions</u>	<u>Employer Contributions</u>
General - Open	11.22%	21.34%

Net Pension Liability

The net pension liability reported at March 31, 2020 was determined using a measure of the total pension liability and the pension net position as of December 31, 2019. The December 31, 2019 total pension liability was determined by an actuarial valuation performed as of December 31, 2019.

Actuarial Assumptions

The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.00% in the long-term
Investment rate of return	7.35%, net of investment expense, including inflation

Township of Vevay

Notes to the Financial Statements

Although no specific price inflation assumptions are needed for the valuation, the 2.5% long-term wage inflation assumption would be consistent with a price inflation of 3%-4%.

Mortality rates used were based on the RP-2014 Group Annuity Mortality Table of a 50% Male and 50% Female blend.

The actuarial assumptions used in valuation were based on the results of the most recent actuarial experience study of 2009-2013.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Global equity	60.0%	3.15%
Global fixed income	20.0%	0.25%
Private Investments	20.0%	1.45%
	<u>100.0%</u>	

Discount Rate

The discount rate used to measure the total pension liability is 7.60%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Township of Vevay

Notes to the Financial Statements

Changes in the net pension liability during the measurement year were as follows:

Changes in Net Pension Liability	Increase (Decrease)		
	Total Pension Liability	Plan Net Position	Net Pension Liability
Balance at March 31, 2018	\$ 654,207	\$ 335,973	\$ 318,234
Service cost	19,039	-	19,039
Interest	50,855	-	50,855
Difference between expected and actual experience	(4,085)	-	(4,085)
Changes in assumptions	17,570	-	17,570
Contributions - Employer	-	46,448	(46,448)
Contributions - Employee	-	15,977	(15,977)
Net investment income	-	45,074	(45,074)
Benefit payments, including refunds	(56,077)	(56,077)	-
Administrative expenses	-	(776)	776
 Net changes	 27,302	 50,646	 (23,345)
 Balance at March 31, 2019	 \$ 681,509	 \$ 386,619	 \$ 294,889

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Township, calculated using the discount rate of 7.60 percent, as well as what the Township's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.60 percent) or one percentage point higher (8.60 percent) than the current rate.

	Current		
	1% Decrease (6.60%)	Discount Rate (7.60%)	1% Increase (8.60%)
Net pension liability of the Township	\$ 347,522	\$ 294,889	\$ 248,401

Note: The current discount rate shown for GASB 68 purposes is higher than the MERS assumed rate of return. This is because for GASB purposes, the discount rate must be gross of administrative expenses, whereas for funding purposes, it is net of administrative expenses.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended March 31, 2020 the Township recognized pension expense of \$37,481.

Township of Vevay

Notes to the Financial Statements

The Township reported deferred outflows of resources related to pensions from the following sources:

Source	Deferred Outflows of Resources	Deferred Inflows of Resources
Excess (deficit) investment returns	1,954	-
* Employer contributions to the plan subsequent to the measurement date	6,792	-
Total	\$ 8,746	\$ -

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net pension liability for the year ending March 31, 2020.

Amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending March 31	Amount
2021	\$ (750)
2022	1,327
2023	4,970
2024	(3,593)

Note 7 - Risk Management

The Township is exposed to various risks of losses for claims arising from general liability, wrongful acts, professional liability, property damage and destruction, crime, accidents, and injuries. Risks of losses arising from possible claims are managed through the purchase of commercial insurance. For all risks of loss, there have been no significant reductions in insurance coverage from coverage provided in prior years. Also, in the past three years, settlements did not exceed insurance coverage.

Note 8 - Tax Abatement Disclosure

Industrial property tax abatements are granted in the State of Michigan under Public Act 198, as amended, to promote economic development, creation of jobs, and new or improvement facilities. The industrial facilities tax (IFT) exemption must be approved by both the Township (after a public hearing is held) and the State of Michigan. IFT exemptions can cover real and/or personal property. By State law, the exemption must be applied for no later than six months after commencement of the project, and must be accompanied by a written agreement between the taxpayer and the Township. An exemption allows for taxation on IFT property at 50% of the local property tax millage rate for a period of 1 to 12 years. Accordingly, such agreements meet the criteria of "tax abatements" under GASB Statement No. 77. For the year ended March 31, 2020, the Township's property taxes were reduced by \$349 under this program.

Township of Vevay

Notes to the Financial Statements

Note 9 – Fund Balances – Governmental Funds

The Township reports fund balance in governmental funds based on the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*: GASB 54 establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

	General Fund	Nonmajor Funds	Total
Nonspendable:			
Prepaid Expenditures	\$ 6,613	\$ -	\$ 6,613
Total Nonspendable	6,613	-	6,613
Restricted for:			
Eden Street Lighting Fund	-	498	498
Lone Oak Street Lighting Fund	-	800	800
Bullen Estates Street Lighting Fund	-	866	866
Mason Manor Street Lighting Fund	-	1,467	1,467
Total Restricted	-	3,631	3,631
Committed for:			
Building & Grounds	54,850	-	54,850
Technology	9,167	-	9,167
Vehicles	8,650	-	8,650
General	5,000	-	5,000
Roads	25,000	-	25,000
Cemetery	27,768	-	27,768
Total Committed	130,435	-	130,435
Unassigned	494,623	-	494,623
Total Fund Balances - Governmental Funds	\$ 631,671	\$ 3,631	\$ 635,302

Note 10 - Subsequent Events

The Township may be affected by the recent and ongoing outbreak of the Coronavirus (COVID-19) which was declared a pandemic by the World Health Organization in March 2020. COVID-19 has caused significant government and business disruptions through mandated and voluntary closings and stay at home orders. Management is in the process of determining if this outbreak will have a significant financial impact on the Township's financial statements.

August 8, 2020

To the Board of Trustees
Township of Vevay
Mason, Michigan

We have audited the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Township of Vevay (the "Township") for the year ended March 31, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 2, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Township are described in Note 1 to the financial statements. We noted no transactions entered into by the Township during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the Township's financial statements were:

- The assumptions used in the actuarial valuation of the pension plan are based on historical trends and industry standards.
- The estimated useful lives of depreciable capital assets is based on the length of time management believes those assets will provide some economic benefit in the future.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Material misstatements detected as a result of audit procedures were corrected by management. The attached schedule summarizes uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 8, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Township's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Township's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to management's discussion and analysis, the budgetary comparison schedules, and the pension schedules, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and

other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the combining and individual nonmajor fund financial statements, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Communication Regarding Internal Control

In planning and performing our audit of the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Township as of and for the year ended March 31, 2020, in accordance with auditing standards generally accepted in the United States of America, we considered the Township's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. In addition, because of the inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. However, as discussed below, we have identified a deficiency in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Township's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

We consider the following deficiency to be a significant deficiency:

2020-1 - Preparation of Governmental Financial Statements

- Criteria:** All Michigan governments are required to prepare financial statements in accordance with generally accepted accounting principles (GAAP). This is a responsibility of the government's management. The preparation of financial statements in accordance with GAAP requires internal controls over both 1) recording, processing and summarizing accounting data (i.e., maintaining internal books and records), and 2) reporting government-wide and fund financial statements, including the related footnotes (i.e., external financial reporting.)
- Condition/Finding:** As is the case with many smaller and medium sized entities, the Township has historically relied on its independent external auditors to assist in the preparation of the government-wide financial statements and footnotes as part of its external financial reporting process. Accordingly, the Township's ability to prepare financial statements in accordance with GAAP is based, at least in part, on its reliance on its external auditors, who cannot by definition be considered a part of the Township's internal controls.
- Cause:** This condition was caused by the Township's decision that it is more cost effective to outsource the preparation of its annual financial statements to the auditors than to incur the time and expense of obtaining the necessary training and expertise required for the Township to perform this task internally.
- Effect:** As a result of this condition, the Township lacks complete internal controls over the preparation of financial statements in accordance with GAAP, and instead relies, at least in part, on its external auditors for assistance with this task.
- View of Responsible Officials:** The Township Board has evaluated the cost versus benefit of establishing internal controls over the recording, processing, summarizing accounting data and preparing financial statements, and determined that it is in the best interest of the Township to outsource this task to its external auditors and to carefully review, approve, and accept responsibility for all nonattest work performed by the external auditors.

We did not audit the Township's response to the internal control finding described above and, accordingly, we express no opinion on it.

Restriction on Use

This information is intended solely for the use of the Township Board of Trustees and management of the Township and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,
