

Vevay Township Athletic Field re-grading and Pavilion Floor Replacement

Township Hall amenities include a pavilion along with baseball and soccer fields. These athletic fields support youth activities and are heavily utilized during summer months. Unfortunately, there has been historically poor drainage of the fields that leaves them wet and/or muddy, reducing their usage. In addition, the cement floor of the pavilion was cracked and in desperate need of replacement. To address these issues, the Vevay Downtown Development Authority (DDA) approved an engineering design that will improve drainage by filling and re-tiling the main fields and replace the floor of the pavilion. Following adoption of this design the DDA requested bids for the work and awarded a contract to Mauldon Bros. Construction, LLC, for both improving the fields and replacing the pavilion floor. Work began on April 21, and should take about three weeks to complete. Due to the need to re-seed the grass fields, they will not be available until later in the summer.

Law requires a list of the contracts awarded, and a synopsis of each contract.

Description of Contracts involving Vevay Downtown Development Authority:

Vevay Downtown Development Authority and Mauldon Brothers Construction, LLC, for improvements to the Vevay Township Athletic Fields and recreational facilities, in the amount of \$63,450.00 subject to materials and work performed.
